

Bullet Train AOC ADVANTAGE

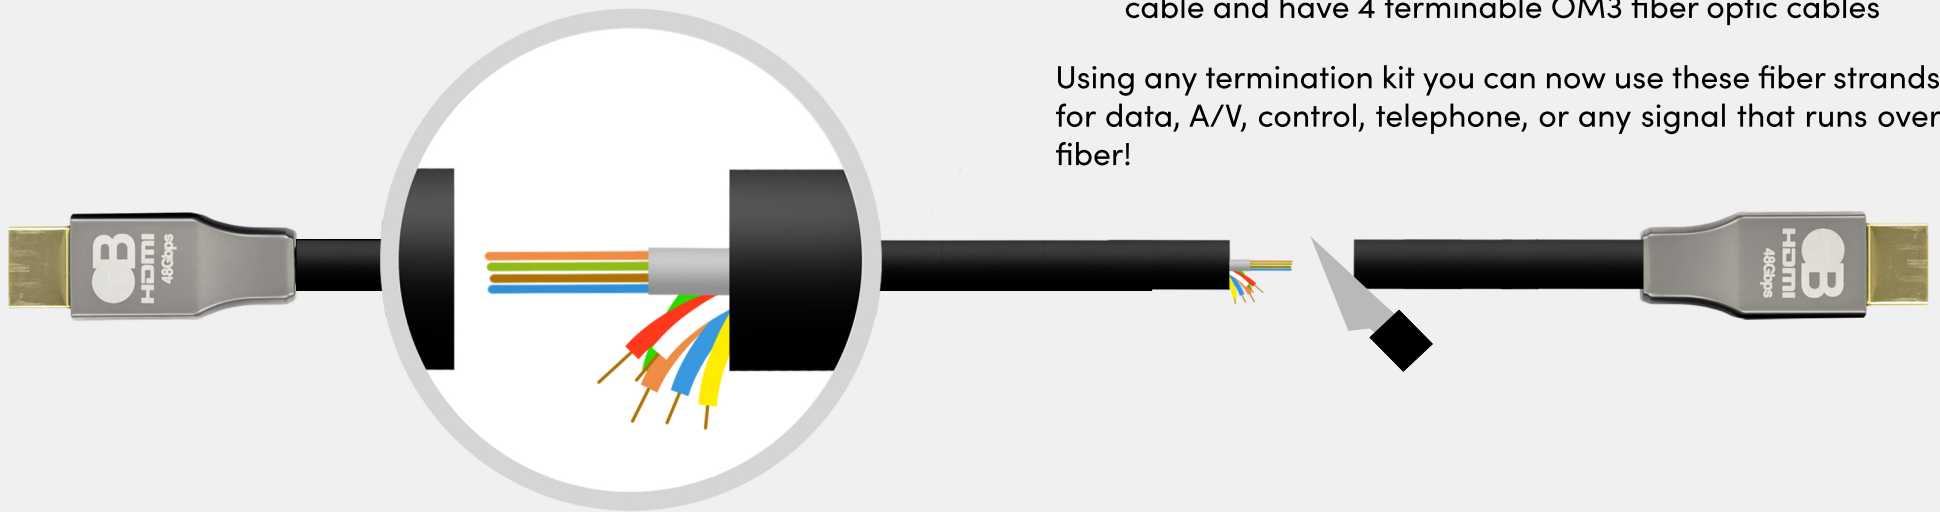

Once you have a Bullet Train AOC cable you also have 4 Cleerline SSF Fiber optic cables. These cables can be used for years to come, even when HDMI technology is outdated! This fiber is ready for over 100Gbps!

Step 1: Run cable

Step 2: Use cable for years

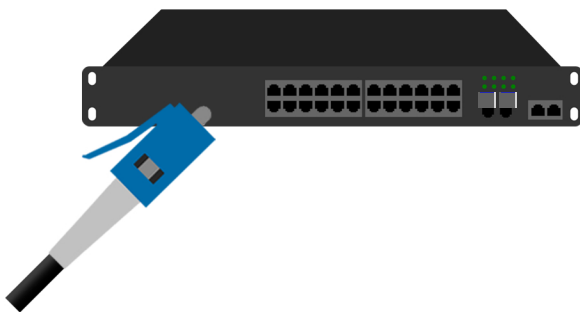

Step 3: Ten years down the line, cut off the end of the cable and have 4 terminable OM3 fiber optic cables

Using any termination kit you can now use these fiber strands for data, A/V, control, telephone, or any signal that runs over fiber!

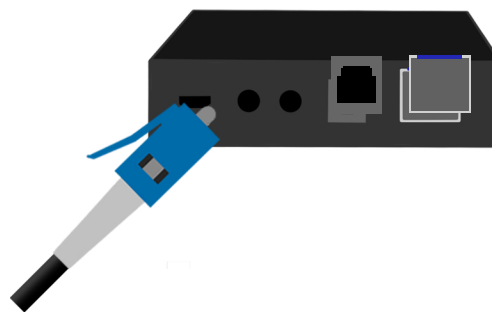

LC connectors can be put on ends of Bullet Train AOC cables for connection to:

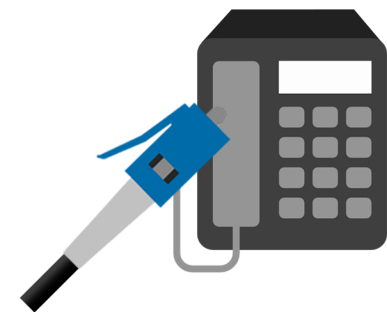

Fiber Network Switch

AV Fiber Extender

Telecommunication

Future-proof HDMI runs with Bullet Train HDMI Cables. Built with
